

AJEESH KUMAR B S

Web Developer | Full Stack Developer

Trivandrum, Kerala | 9567106498 | ajeeshkumarbs168@gmail.com

GitHub: github.com/Ajeeshkumar73 | LinkedIn: linkedin.com/in/ajeesh-kumar-b-s-60978631a

Portfolio: ajeeshkumar.vercel.app

SUMMARY

Software and Full-Stack Developer with expertise in Python, Django, React.js, JavaScript, full-stack web development, and REST API development. Built 6+ end-to-end web applications integrating AI/ML, LLMs, and modern web technologies. Skilled in backend development, responsive frontend development, database design, API integration, and cloud deployment using Vercel and Render. Passionate about building scalable software solutions and eager to contribute as a Software Developer or Full-Stack Developer.

TECHNICAL SKILLS:

- **Languages:** Python | JavaScript | PHP | SQL | HTML5 | CSS3
 - **Frameworks & Libraries:** React.js | Django | Flask | Tailwind CSS | Bootstrap
 - **Backend:** Django REST Framework | REST APIs | MVC Architecture | Jinja2 | Flask-SocketIO
 - **Databases:** SQLite | MySQL | MongoDB | PostgreSQL
 - **Tools & Technologies:** Git | GitHub | VS Code | Vite | Jupyter Notebook | Excel | Vercel | Render
 - **Concepts:** Full-Stack Development | SDLC | Authentication & Authorization | Responsive Web Design | Single Page Application (SPA) | RDBMS | OOP | RESTful API Development | Software Testing & Debugging
 - **AI & Machine Learning:** Machine Learning | Deep Learning | Artificial Intelligence | NLP | LLM Integration | Groq API Integration | Scikit-learn | PyTorch TabNet | Random Forest
 - **Soft Skills:** Problem Solving | Communication | Adaptability | Continuous Learning | Teamwork
-

PROJECTS

PERSONAL PORTFOLIO WEBSITE | GitHub: github.com/Ajeeshkumar73/portfolio |

Live demo: ajeeshkumar.vercel.app

Tech Stack: React.js, Django, Django REST Framework, REST APIs, SQLite, HTML5, CSS3, Tailwind CSS, JavaScript, Git, Vercel, Render

- Developed a responsive full-stack portfolio website using React.js, Django REST Framework, and SQLite to showcase projects, technical skills, certifications, and achievements.
- Designed and integrated RESTful APIs to dynamically manage portfolio content, contact information, and resume downloads.
- Deployed the application with the React frontend on Vercel and the Django backend on Render, ensuring performance, responsiveness, and scalability using Git for version control.

LEARN LOOP- AI-Powered Career Guidance & Skill Development Platform |

GitHub: github.com/Ajeeshkumar73/LearnLoop

Tech Stack: Python, Django, Django REST Framework, HTML5, CSS3, JavaScript, Tailwind CSS, SQLite, NLP, LLaMA 3.3 70B, Groq API, REST APIs, Google OAuth 2.0, SMTP, Git

- Developed an AI-powered career guidance platform providing personalized career recommendations, skill-gap analysis, customized learning roadmaps, and AI-driven resume generation to support multiple career development.
- Built job description analysis and an AI mentor chatbot using REST APIs, Natural Language Processing (NLP), and Large Language Model (LLM) integration.
- Implemented a community platform enabling users to create posts, explore content, and connect with others pursuing similar career paths

WELLNESS WAVE - Early Lifestyle Disease Prediction and Prevention System |

GitHub: github.com/Ajeeshkumar73/wellness_wave_main

Tech Stack: Python, Flask, HTML5, CSS3, JavaScript, Tailwind CSS, MongoDB, PyTorch TabNet, Scikit-learn, Deep Learning, REST APIs, Flask-SocketIO, SMTP, Qwen 3 32B, Groq API, Git

- Developed an AI-powered healthcare application using PyTorch TabNet deep learning models to predict lifestyle disease risks from user health metrics and lifestyle data, achieving over 95% prediction accuracy on the evaluation dataset.

- Implemented personalized health recommendations for low- and moderate-risk users, automated doctor consultation and appointment booking for high-risk users, and integrated an LLM-powered chatbot for preventive healthcare support.
- Developed features for exploring doctors' blogs, tracking health records, and providing personalized preventive healthcare insights.

SCORE TRACKER - Employee Productivity Monitoring and Smart Task Recommendation System |

GitHub: github.com/Ajeeshkumar73/score-tracker

Tech Stack: Python, Flask, MongoDB, Random Forest, Scikit-learn, Machine Learning, NumPy, Pandas, HTML5, CSS3, JavaScript, Tailwind CSS, REST APIs, Socket.IO, SMTP, Authentication, Git

- Developed an AI-powered workforce management platform to analyze employee performance and generate real-time productivity insights.
- Built a machine learning-based task recommendation system that assigns tasks based on employee skills, workload, and historical performance data.
- Implemented attendance, leave management, analytical dashboards, and real-time communication features to improve workforce productivity and decision-making.

FARMIE-Web-Based Agriculture Management System | GitHub: github.com/Ajeeshkumar73/farmie

Tech Stack: Python, Flask, MongoDB, HTML5, CSS3, JavaScript, Tailwind CSS, Scikit-learn, Random Forest, Machine Learning, NumPy, REST APIs, Git

- Developed a smart agriculture management platform providing crop cultivation guidance and machine learning-based crop disease detection with preventive recommendations.
- Built an online marketplace enabling farmers to list, manage, and sell agricultural products directly to customers.

ONLINE CRIME REPORTING- Web-Based crime Reporting and Analysis System

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap

- Developed a web-based crime reporting system enabling citizens to submit complaints and report incidents online, reducing the need for physical visits to police stations.
- Designed and implemented secure complaint management modules using PHP and MySQL for efficient complaint submission, tracking, and administration.

EDUCATION

- **Master of Computer Application |** CGPA: 8.37
LMCST, APJ Abdul Kalam Technological University, Trivandrum | 2024–2026
- **Bachelor of Science in Computer Science |** CGPA: 7.18
Kerala University | 2021–2024

CERTIFICATIONS

- Software Programmer - Python | IT-ITeS SSC NASSCOM, 2024
- Data Analytics with Microsoft Power BI | IT-ITeS SSC NASSCOM, 2025
- Cloud Computing | NPTEL, 2025

ACHIEVEMENTS

- Secured 1st Place in the Ideathon (EVOX 2025) at Lourdes Matha College of Science and Technology, collaborating in a 4-member team to design an innovative technology solution addressing a social challenge
 - Secured 2nd Place in the Hackathon 2025 – Web Development Competition, organized by the Innovation and Entrepreneurship Development Centre (IEDC), demonstrating skills in full-stack web development, problem-solving, and teamwork.
-
